

Smart-RAS Information & Pricing: 2010

Smart-RAS is a Windows based remote access server implementation providing Terminal Services, Windows Printer Management, Windows Update Services, Virus Protection and Distribution Services for Symantec Endpoint Protection. There are two versions of Smart-RAS available for Smart-Net customers. A dedicated Smart-RAS server operates independently and alongside your existing Smart-Net server. This is recommended where your existing Smart-Net server is unsuitable for upgrading. The virtualised version of Smart-RAS operates entirely within your existing Smart-Net installation using VMware.
